Anglotech: the alternative to costly original parts

We are specialized in producing, stocking and selling spare parts (non genuine or from Original Equipment Manufacturer) for most common brands used in engine rooms.

Anglotech was founded in 1998 in the strategic international logistic location of La Spezia, starting business with air compressors spares and later widening its range of spare parts for pumps, refrigerator compressors, vacuum sewage systems and filters.

We started selling separators, purifiers and heat exchanger spares in 2012 with Sepur which is our personal brand.

Because we boast a long term experience and a vast warehouse, that

counts over 10,000 parts, we can offer most of the spares needed in engine rooms at the right price and we can proudly state that we are the best alternative to the costly original spares.

AIR COMPRESSORS

We have an extensive stock of O.E.M. and alternative spare parts for most marine air compressor brands.

Over the last 15 years our partners' workshops have produced spare parts in accordance to the most stringent international quality standards.

This allows us to provide all the necessary components to overhaul a compressor, from small gaskets to pistons, valves and bearings.

IMPROVEMENTS AND QUALITY CONTROL

Thanks to our reverse engineering and the department's constant research we have expanded our range, to main spare parts such as, cylinders, coolers and crankshafts.

We run tests run our spare parts on compressor units that we have in stock, to certify their correct performance.

TANABE

Our overhauling:

- full disassembly
- crankshaft measuring and bearing replacement
- **Installation of overhauling kit 4000/5000 hours** (valves, safety valves, piston rings, manometers, filters, gudgeon pins, bearing bush, gaskets etc)
- single part check
- worn out part replacement:
- re-assembling
- running and loading at 30 bars
- final painting
- wooden box packing

In addition the following accessories can be installed:

- anti vibration dampers
- solenoid valves
- pressure switches
- non return valves
- flexible hoses

2TF5 Hamworthy

Air bottle

Every reconditioned compressor is delivered with:

- **6-months warranty certificate**
- **running test certificate**
- **instruction manual**
- **spare parts book.**

REFRIGERATOR COMPRESSORS

We have an advanced knowledge of all leading brands of refrigerator compressors and ancillaries.

We supply a wide range of spare parts:

Connecting rods

Crankshafts

Cylinder liners

Pistons

Bearings

Pins and bushes

Valve plates and valves

Oil pumps gears

Gaskets kits

Shaft seals and cover plates

REPAIR AND RECONDITIONING

We recondition and test refrigerator compressors in our workshop.

*Every machines is dissassembled, completely overhauled and delivered with a **6 months warranty**.*
